## Work Experience

**Infotact Solutions - Software Development Intern** August 2025 - October 2025

- Developed and enhanced web applications using MERN stack (MongoDB, Express.js, React, Node.js).
- Designed and implemented front-end features and integrated APIs for seamless functionality.
- Improved backend performance and database management for scalable solutions.
- Collaborated in Agile teams on testing, debugging, and deployment tasks.
- Gained practical experience in problem-solving and delivering client-ready solutions.

## Projects

**AI Finance Intelligence & Revenue Forecasting Platform**

- Developed an AI-based Finance Intelligence & Revenue Forecasting Platform to manage revenue and expenses, implementing time-series prediction using Prophet via Python microservices, and designing interactive dashboards with KPI cards, financial trends, and forecast visualizations.
- Built secure REST APIs for authentication, transactions, and invoice uploads using Node.js and Express.js.
- Integrated AI-generated financial insights and automated report generation.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Python (Prophet), JWT

**AI-Powered Gym Management System**

- Tech Stack: React, React Native, Expo, Node.js, MongoDB, Tailwind CSS, Socket.io.
- Built a unified system to centralize gym operations, reducing administrative overhead by automating membership tracking and class scheduling.
- Created a high-performance mobile experience using Expo, enabling members to manage subscriptions and book HIIT sessions via UPI/Card payments.
- Integrated WhatsApp Business API for automated engagement, including membership renewals and booking confirmations triggered by backend cron jobs.
